

THERMAL PRODUCTS INC.
Engineered Solutions To Industrial Applications

Smithco's Amercool Division designs, manufactures and supports air-cooled heat exchangers for the power generation industry. Applications include radiators, generator sets, landfill gas cooling as well as others.

GENERATOR SETS

6312 S. 39th West Avenue • Tulsa, Oklahoma 74132 • Phone: 918.446.4406 • Fax: 918.445.2857 • www.smithco-eng.com • email: info@smithco-eng.com

Features of Amercool Coolers:

- Rugged construction from heavy gauge steel for equipment longevity
- Galvanized finish standard—suitable for off-shore applications and other harsh environments
- Low noise designs available
- Outline drawings available with quote
- Cooling sections from 3' to 60' long
- Round finned tubes 5/8" to 1 1/4"
- Low pressure drop design
- Various materials of construction available including 304, 316 stainless
- Surge tanks available

Configurations Available:

- Horizontal (electric motor drive, forced/induced draft, up to 60' long sections)
- VCI Models: 48" – 168" (vertical, engine driven, induced draft)
- ST Models: 30" – 60" (vertical, motor driven, forced/induced draft)
- HF Models: horizontal coils, vertical fans, engine driven, forced draft, up to 60' long sections

Maintenance & Support:

- Customer support during critical maintenance schedules
- Replacement finned tubes
- Replacement bundles
- Mechanical components
- Technical field service support
