

COOLING TOWER

TP SERIES
FIBERGLASS

- **All Non-Ferrous Design**
- **45 to 540 Tons Capacity**
- **UV Stabilized Fiberglass Shell**
- **TEFC Fan Motor with ABS Fan Blades**
- **10 Year Shell Warranty**
- **5 Year Mechanical Warranty**

The **TP Series** cooling tower is ready to meet the needs of today's industry. This tower cell is made of all non-ferrous materials, including fiberglass shell, TEFC motor, ABS fan, PVC wet deck and distribution header. The fiberglass shell is 1/2" thick and even thicker in certain support areas. Other product features include:

STANDARD FEATURES

TOWER DESIGN:

- Single or multi cell designs
- Total non-ferrous construction materials
- Single inlet and drain connections on models to 270 tons
- Induced draft air movement
- Structural galvanized steel base on 45 to 135 ton models
- Structural painted steel base on 170 to 540 ton models

SHELL CONSTRUCTION:

- High strength fiberglass molding
- 1/2" of structural thickness in reinforced areas
- UV stabilized coating
- Acrylic adhesive bonding between shell halves
- Polyurethane sealant

FAN:

- Air foil shaped blades for increased air flow
- Blades are made of a glass fiber reinforced polymer
- Direct drive
- Factory set for maximum air movement

MOTOR:

- TEFC construction
- Mounted on a stainless steel frame
- Supported on reinforced fiberglass shell area
- Mounted to shell with stainless steel fasteners

INLET LOUVERS:

- PVC construction
- Easily removed for cleaning
- Vertical orientation to eliminate 'splash out'
- Directs air flow at proper angle for even distribution into wet deck
- Helps prevent air-borne debris from entering cell

DISTRIBUTION HEADER:

- Non-ferrous PVC 'cross' construction
- Stationary
- Computer designed spray pattern
- Large orifice spray heads
- PVC spray heads
- Drift eliminator prevents over spray and water loss

TP-135 shown

WET DECK:

- Stacked honeycomb pattern maximizes water and air flow for greater cooling efficiency
- PVC construction

INSPECTION COVERS:

- Easily removed
- Seamless gasket sealing
- Allows for inspection of cell interior and replacement of wet deck

WARRANTIES:

- 10 year shell warranty
- 5 year motor/fan warranty

OPTIONS

FAN STARTER KIT:

- Motor starter contactor
- Motor overload relay
- Nema 1 enclosure
- Fan thermostat

BASIN FLOAT VALVE:

- Mechanical float and valve
- 1/2" supply connection
- Factory or field installed

SIDE OUTLET:

- PVC flange
- Factory installed

TOWER STAND:

- 10' corner post design with cross bracing
- Ladder and railing attachments

Notes:

1. Cooling water from 95°F to 85°F at 3 gpm / ton and 78°F wet bulb temperature.

2. When used with remote sump. Consult factory for connection size.
