BLADE SE > The Quality Air Station

SERIES: BLADE 4, 5 & 7
YOUR COMPLETE SYSTEM FOR CLEAN, DRY AIR

Mattei® continues to deliver superior performance and more value for your money with the new BLADE SE Quality Air Station. Simply wire it, attach your discharge pipe – and it's ready to run!

Each BLADE SE Quality Air Station features our super quiet (62 dB(A)) and energy efficient BLADE Series air compressor with:

- Built-in air-cooled aftercooler
- Intelligent moisture separator with auto-drain
- A properly sized refrigerated air dryer ready for summer heat
- All mounted and piped onto an 80 gallon air receiver

UNCONVENTIONALLY RELIABLE, DURABLE & ENERGY EFFICIENT

Mattei's advancements in technology and materials offer our customers the best value in premium quality air compressors found anywhere on the planet. BLADE Series air-ends are engineered to last 100,000 hours and are warranted for a full 5 years. The BLADE turns at speeds as low as 1,050 rpm, a quarter of the speed of typical rotary screw and piston compressors, and lasts up to 2-3 times longer too!

BLADE SE: THE ULTIMATE CHOICE

Mattei BLADE SE Quality Air Stations are designed to deliver clean, dry compressed air 24 hours a day, every day of the year. Only the BLADE SE features an air-cooled aftercooler in a 5 HP to 10 HP compressor, and a refrigerated air dryer that delivers bone-dry air even during the heat of summer!

Don't "screw" around with a piston. If you're looking for clean, dry compressed air, get a Mattei BLADE SE Quality Air Station!

BLADE SE STANDARD FEATURES:

- Simple to install with one single-point piping connection
- Built-in 1.0 micron prefilter with auto-drain
- Built-in air-cooled aftercooler
- Moisture separator with intelligent timer operated drain valve
- Refrigerated dryer sized for summer heat
- 80 Gallon ASME air receiver
- Turns as slow as 1,050 RPM
- Up to 20% more energy efficient than typical rotary screw and piston compressors
- 5-Year Airend Warranty
