

INTRODUCING

# iCommand-Touch

CONTROLLER FOR THE NX SERIES  
OF AIR COMPRESSORS

The optional iCommand-Touch  
controller revolutionizes compressor operations.

Imagine touch screen, intuitive control right at your finger tips.

# iCOMMAND-TOUCH

## TAKE CONTROL OF YOUR WORLD.

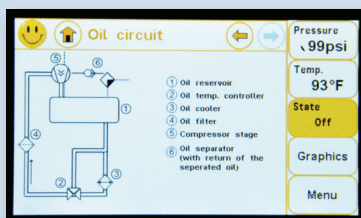

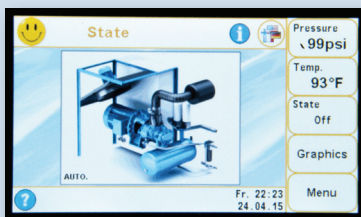

With the optional iCommand-Touch, a full-color screen displays graphs which capture and track factual, real-time air usage by the hour, day, week and month. Historical data can be retrieved at any time at the touch of the screen.

**Data trending keeps your finger on the pulse of your entire compressed air system!**

### Simple Touch Screen Control

### Intuitive Navigation

### Capture Realtime and Historical Data Trending

**One-Touch Status Review At A Glance:** Continuously tracks pressure, temperature, air quantity and usage to easily diagnose and optimize your plant's air system.

## Trending and Graphing Capabilities

Graph information can be conveniently downloaded to SD card for historical records, troubleshooting and quality control measures.
